

CREATING A ROAD MAP FOR YOUR FUTURE

## Introduction - Karen Jacobsen - The GPS Girl®

You have heard our Speaker's voice in over **a billion devices** giving directions in GPS devices worldwide, and as the original Australian "Siri" in iPhones.

She is an award winning Singer and Songwriter, Author of two books, and Harry Connick Jr called her "hypnotic" on his national talk show.

When she is not telling people where to go, she's practicing yoga or more likely playing ping pong with her 10 year old son.

Please join me in welcoming from Australia now living in New York City, Entertainer, Author and the "only woman men will take directions from" - The GPS Girl® -

**Karen Jacobsen.**
